What Members Say

Alice Waruguru

"I joined BWC. I found other girls at the Center and we immediately started learning...BWC is the place to be when you have lost hope in yourself and feeling you are a nobody. It will raise your self-esteem and give you a platform to reflect on your life and get direction and the wings to fly again."

Ruth Kitute

"Baraka Women Centre turned my life around and got the best out of me. I was so desperate but am full of hope now. I was taken from grass to grace, my scars became my stars, and am a new young woman now."
